● Percentage Achieved

How Test Results Are Evaluated

As the FASS Test is not a pass-or-fail type of exam, your test results will be evaluated by Score and Level as shown in the table below. Since the evaluation criteria are consistent across different exam sessions, the Scores will be the same as long as your skill level is not changed. The evaluative comments for each Level in the table below have been developed based on the verification work performed by the FASS Administration Committee of the Japan Association for CFOs, a developer of the FASS Test, on the correlation between the Scores and the practical skills in the finance and accounting functions. The Score can be used as a reference to check your current skill level. It should be noted that, as the objective of the FASS Test is to measure the overall level of routine job skills for the entire finance and accounting functions, the "Score" is the most important indicator to measure your job skill while the achievement level for each job function should be used as reference information that tells you which job function you should become more familiar with to improve your Score.

Test Results Evaluation Table

Level	Score	Evaluative Comments
A	689 or above	- You have sufficient skills to confidently perform job duties in the accounting and finance function with an accurate understanding of its entire work processes.
B	641-688	- You have sufficient skills to perform job duties in the accounting and finance function with a reasonable level of understanding of most of its work processes. - Although the level of accuracy of the knowledge varies by job field, this will not cause any problems in satisfactorily performing the job.
C	561-640	- You have basic skills to perform the day-to-day job duties in the accounting and finance function with limited ability to address jobs that have never been attempted before. - You have skills to comfortably address any issues concerning the day-to-day job duties with a reasonable level of understanding of their nature.
D	441-560	- You have skills to perform minimum required job duties with some support although the level of accuracy of knowledge varies widely across job fields.
E	440 or below	- You have only a limited level of understanding of the work processes in the accounting and finance function. - You are expected to make further efforts in developing the skills.

Please be noted that the Institutional Program (IP) Test Score Report should not be treated as a score report officially certified by the Japan Association for CFOs.
